Billing Dispute & Refund SOP

Trigger: Trigger this workflow when a customer disputes a charge or requests an order refund.

Step 1: Ask the caller for their order_id and disputed_amount to verify the charge.

Step 2: Invoke lookup_order to check the order status and 30-day return window.

Step 3: Invoke issue_refund with confirmationRequirement=REQUIRED to process the customer refund.

Step 4: Inform the caller that their refund has been processed and a confirmation email was sent.
